

GENERAL CRITERIA FOR ACCEPTANCE INTO PROGRAM SERVICES

Acceptance decisions are made by the Program Services Managers and typically are based on the following criteria:

In general, to be eligible for Clovernook services, the individual will:

- a) Have a vision impairment that affects some aspect of independent functioning.
- b) Demonstrate the ability to actively participate in services.
- c) Be free of ongoing behavior patterns, medical, or related conditions which would pose a threat to the safety of self, others, or property during the course of program participation.
- d) Be able to independently manage personal hygiene needs.

Specific programs may have additional criteria for acceptance. In most instances, individuals will be admitted on a first come, first served basis. Although rare, unusual circumstances may make it impossible to schedule the start of services immediately. In the unlikely event this occurs, you will be placed on a waiting list and enrolled as soon as possible.
